ICT
for Education
Trusted by Teachers
Since 2012

Learn, Share, Enjoy.
ICT for Education can help you get the most out of technology in your classroom and in your school

The **ICT for Education** brand is trusted by teachers. Since 2012 we have hosted conferences and seminars aimed at informing and inspiring the teaching of computing and schools' use of ICT across the curriculum.

Our conferences, seminars and newsletters contain relevant, innovative, informative content delivered by experienced, knowledgeable, respected speakers able to relate to and understand the challenges faced by those responsible for giving learners the best opportunities in life.

ICT for Education is for anyone with a passion for teaching computing, computer science and technology and with a commitment to raising the standards of computer literacy and the appreciation of technology among students.

ICT for Education Conferences

ICT for Education
Trusted by Teachers
Since 2012

Conferences have looked to inform and inspire the teaching of computing and the use of ICT across the school curriculum. Our speakers are or have been teachers so understand the demands and challenges faced in schools and are able to give advice and insight based on experience. Conferences also have an exhibition of knowledgeable and established technology suppliers to schools. We're confident that you'll have something worthwhile to take back to school.

" Thank you once again to all involved in putting on the Conference, it was very interesting and entertaining… it was good to see and hear how IT is being utilised in the classroom. "

Brian V. Mays - Senior ICT Technician | West Sussex Alternative Provision College

Event Timing:
07.30-12.30

Over 100 Conferences held since 2012

ICT for Education Seminars

ICT for Education
Trusted by Teachers
Since 2012

" The ICT for Education events have been a highlight of my calendar for a number of years now, as these have provided a brilliant opportunity to engage with teachers and the ed tech industry. "

Prof. Miles Berry MA MBA FBCS FCCT SFHEA - Professor of Computing Education | University of Roehampton

ICT for Education seminars are local events focussing on a key technology topic relevant to teachers and schools. Held at university venues, seminars provide delegates an opportunity to hear specialists in their field show how they can use technology to provide the best possible learning environment today and tomorrow.

Event Timing:
15.30-18.30
